REMARKS

The Official Action of November 9, 2006, and the prior art cited and relied upon therein have been carefully studied. The claims in the application remain claims 1-7, and these claims define patentable subject matter warranting their allowance. Favorable reconsideration and such allowance are respectfully urged.

Claims 1-7 remain in the application for consideration. Applicant thanks the Examiner for his indication that claims 1-7 would be allowable subject to overcoming his 35 U.S.C. §112, second paragraph rejection.

In response to the Examiner's objection to the drawings, specification and claim 1 and rejection of claims 1-7 under 35 U.S.C. §112, second paragraph, Applicant has:

- (1) Amended Fig. 7 to correct the lead line to reference numerals 13 and 16;
- (2) Deleted lines 23-26 on page 3 of the specification which reference the claims, and
- (3) Amended claims 1, 5 and 7 to eliminate each of the antecedent and idiomatic problems identified by the Examiner.

Applicant respectfully submits that the actions of 1-3 above overcome the Examiner's objection to the drawings,

specification and claim 1 and rejection of claims 1-7 under 35  
U.S.C. §112, second paragraph.

Accordingly, Applicant having overcome the  
Examiner's 35 U.S.C. §112 rejection respectfully submits that  
claims 1-7 are now allowable and that this application is now  
in condition for allowance.

The prior art documents made of record and not  
relied upon have been noted along with the implication that  
such documents are deemed by the PTO to be insufficiently  
pertinent to warrant their applications against any of  
applicant's claims.

Favorable reconsideration and allowance are  
earnestly solicited.

Respectfully submitted,
